Thereafter, each authorised dealer would be entitled to access up to 50 per cent of the amount contributed by that dealer but restricted on a monthly basis to one-third of this entitlement. This would ensure that at any moment in time, at least two months' contribution would be available in the Fund. The remaining 50 per cent would be available to the Bank of Jamaica primarily for exchange rate support.

92/08/17 The Exchange Control Act has been repealed and the Bank of Jamaica Act has been amended in a Schedule to the Bill to reflect those provisions. Three features of that Act were retained - the prohibition against trading in foreign currency except by an authorised dealer, provisions under which the Minister could issue directions to specified classes of persons as regards the acquisition of foreign currency, and provisions relating to offences.

93/06/21 The following are amended guidelines for the Inter-bank Foreign Exchange Market:

1. The Bank of Jamaica will discontinue the provision of indicative rates to authorised dealers.

In addition, the Bank of Jamaica will require the following additional information:

   (a) daily closing, buying and selling rates for the United States and Canadian dollar and the Pound Sterling, and other foreign currencies;

   (b) volumes bought and weighted average purchase rate;

   (c) volumes sold and weighted average selling rates;

   (c) volumes bought and weighted average buying rates;

   (d) volumes sold and weighted average selling rates;

5. For purposes of customs valuations and official statistics, the official rate will be related to the weighted average selling rate for the system as a whole.

6. All participants in the foreign exchange market may carry out their exchange transactions, spot or forward.

7. In accordance with the present arrangement all authorized foreign exchange dealers will surrender 25 per cent of their purchases to Bank of Jamaica instead of the current 28 percent. It is intended that this percentage can be lowered as the market evolves. Authorized Dealers will sell to Bank of Jamaica at the weighted average selling rate of the system as a whole.

8. All Authorized Foreign Exchange Dealers will keep their margins at 5 cents on foreign exchange transactions (i.e. between buying and selling rates).

94/01/06 The following guidelines established for the licensing of new authorised foreign exchange dealers on a limited basis. Applications received from institutions licensed and operating under the Financial Institutions Act 1992.

(i) Applicants are not allowed to engage in the buying and selling of foreign exchange. 01/12/11 Trafalgar Commercial Bank Limited changed its name to First Global Bank Limited.

APPENDIX II

02/10/14	CIBC West Indies Holdings Limited and CIBC Jamaica Limted began operating as First Caribbean International and First Caribbean International Bank Jamaica, respectively.
02/11/11	Scotia Jamaica Trust and Merchant Bank Limited terminated its operations and surrendered its deposit-taking licence.
03/01/10	The Bank of Jamaica instituted a "Special Deposit" requirement for Commercial Banks and institutions licensed under the Financial Institutions Act. Each institution will be required to place cash deposits with the Central Bank equivalent to 5% of its Jamaican dollar deposit liabilities. This measue is instituted in a context of increased speculation and heightened instability in the foreign exchange market which has been facilitated by the high levels of Jamaican dollar liquidity in the system. The Central Bank intends to retain this measure until normality is restored in the foreign exchange system.
03/01/31	International Trust and Merchant Bank Limited terminated its operations during January 2003 and surrendered its deposit-taking licence on January 31, 2003.
03/02/10	The Bank of Jamaica introduced a special five-month open market instrument which will earn interest at 30% per annum. The interest on all other open market instruments remained unchanged. This instrument was introduced in a context of significant Jamaica dollar liquidity and protracted instability in the foreign exchange market. It was intended as a temporary measure to be removed as soon as the corrective fiscal action being developed by the government became effective.
03/02/14	The Bank of Jamaica withdrew the special five-month open market instrument which was introduced on 10 February 2003.
03/07/09	First Caribbean International Trust and Merchant Bank Limited (FCITMB) surrendered its deposit-taking licence previously issued under the protection of Depositors Act, and has been renamed First Caribbean International Securities Limited. The decision to remove this instrument came against the background of tight Jamaica dollar liquidity and the appreciation in the exchange rate over the preceding four days. The removal also came following representations made to the Bank of Jamaica by financial institutions and understandings reached with respect to the development of foreign exchange market protocols.
05/05/27	Bank of Jamaica ceased using reverse repurchase agreements to conduct open market operations.

BALANCE OF PAYMENTS METHODOLOGY

The presentation format of Jamaica's Balance of Payments (BOP) has been revised to conform with the international standard as embodied in the 5th edition of the BOP manual published by the International Monetary Fund (IMF). The revisions have been made largely to harmonize the Balance of Payments statistics with the internationally accepted System of National Accounts (SNA) and the IMF's international statistical system.

Major Categories of the Balance of Payments

The new presentation of the Balance of Payments still consists of two main accounts. These are the Current Account and the Capital and Financial Account.

A. CURRENT ACCOUNT

The current account is further sub-divided into the Goods and Services, Income and Current transfers sub-accounts.

1. **The Goods and Service Sub-account** covers merchandise trade, travel, transportation and other services.

   a. **Merchandise Trade:** This encompasses general merchandise, free zone imports and exports and goods procured in ports by international carriers.

   b. **Travel:** Travel covers the goods and services acquired for personal consumption from an economy by persons staying for less than one year in the economy of which he/she is not a resident. This item includes travel for leisure, business, medical and educational purposes. Expenditure by seasonal workers are also included.

   c. **Transportation:** This covers those services that involve the carriage of passengers, movement of goods (freight), charter of carriers with crew and other supporting services.

   d. **Other Services:** Included in this group are services relating to communication, construction, insurance, finance, computer and information, personal, cultural and recreational activities, government and royalties and licenses fees.

2. **The Income sub-account** encompasses the compensation of employees and investment income such as profits, reinvested earnings, interest, dividends and other income.

3. **The Current Transfers sub-account** covers transactions such as taxes on income, workers' remittances, premiums and claims on non-life insurance.

B. THE CAPITAL AND FINANCIAL ACCOUNT has two major components, the Capital Account and the Financial Account.

1. **The Capital Account** covers (a) capital transfers and (b) the acquisition/disposal of non-pro duced, non-financial assets.

    a. **Capital transfers** include the transfer (as gift, grant or bequest) of ownership of fixed assets, and funds linked to disposal/acquisition of fixed assets and the cancellation of debt by creditor.

    b. **Acquisition/disposal of non-produced, non-financial assets** involves intangibles such as patents, leases and the purchases/sales of land by foreign embassies.

2. **The Financial Account** covers (a) direct investment (b) portfolio investment (c) other investments (trade credits, loans, currencies and deposits) and (d) official reserves.

While the composition of the accounts may have changed in some instances, the new presentation still facilitates identification of performance of familiar categories including merchandise trade, services, the current account, public and private capital flows and changes in official reserves.

Tables 28.0-28.1 - Stock Exchange Index and Activities

Compiled from monthly trading data submitted by the Jamaica Stock Exchange.

As of June 1, 2000, the Jamaica Stock Exchange began dissemination of three-market capitalization indices, the JSE Index, the JSE All Jamaican Composite and the JSE Select.
The JSE Index (base June 30, 1969 = 100) is an index of all the equities traded on the Stock Exchange. The index is weighted by the market capitalization of each equity.
The JSE Composite Index (base May 1, 2000 = 31931) is an index of All Equities of Jamaican Companies traded on the Stock Exchange.
The JSE Select (base June 1, 2000 = 1000) is an index of the fifteen (15) most liquid stocks trading on the exchange based on times traded and trade volume. The composition of this index is revised on an annual basis.

Calculation of Jamaica Stock Exchange (JSE) Market Index

The JSE uses the following formulae to compute its market indices:

- Current Index = Sum (Issued Volume X Current Last Sale Price) ÷ Index Base

- Index Change = Sum [(Issued Volume ÷ Last Sale (Current - Previous)] ÷ Index Base
  Alternatively,

- Index Change = Current Market Index - Previous Market Index.

The Index Base is adjusted whenever:

- The issued volume of a listed company changes as a result of the distribution of additional shares from Rights Issues and/or New Issues;

- The market capitalization increases as a result of the listing of a new company;

- The market capitalization declines, as a consequence of the de-listing of a (listed) company.

N.B. Observe that bonus issues and stock splits do not impact market capitalization since both the issued volume and the quoted market price of the particular security would have been adjusted to reflect the split or bonus. As a result, the Base Divisor remains unchanged.

Table 29 - International Reserves

The format reflects:

(a) Column 5 - Bank of Jamaica's net international reserves position excluding the Bank's medium term liabilities which are usually treated 'above the line' or in the capital account of the balance of payments.

(b) Column 9 - The country's net official foreign position which includes the Bank of Jamaica's net international reserve position (column 5) as well as those of the Central Government and Selected Public Agencies. The changes in these stock figures normally provide an indication of the country's overall balance of payments surpluses or deficit position for a given period of time.

(c) Column 12 - The medium term liabilities of the net foreign position of the commercial banks are added to Column 9 to provide a broader concept of the country's foreign position.

Data on the Government sector are obtained from the Accountant General and Government's fiscal agents. Sources for the banking sector are returns of assets and liabilities of the Bank of Jamaica and the commercial banks. Official institutions are: Export Development Fund, Banana Industry Insurance Fund, Banana Board, Coconut Industry Board and the Sugar Industry Authority. The Capital Development Fund (CDF) is a statutory fund established to receive and administer the Funds accruing from the Bauxite Production Levy. Statutory Sinking Fund investments represent sums set aside and invested in foreign securities for the redemption of foreign debt. Domestic holdings of Jamaica Government securities issued in overseas markets have been excluded.

Merchandise trade encompasses general merchandise, goods for processing, repairs on goods, goods procured in ports by carriers and imports and exports of the free zones. The Statistical Institute of Jamaica (STATIN) provides data on the first three components in an aggregated form, which are based on custom's records. The data from STATIN are categorized as general merchandise. It should be noted that general merchandise transactions of the free zones are not reported by STATIN, and are therefore carried as a line item in the trade tables. Data on the other components are obtained by way of enterprise surveys.

S.I.T.C. denotes Standard International Trade Classification

Imports are valued at c.i.f. (cost, insurance , freight) in Jamaica dollars.

Government Guaranteed External Debt represents non-central government debt with central government as guarantor, and is consequently a potential liability to central government. In the event of default, government has to assume responsibility of repayment. The information is compiled from regular returns which are supplied by institutions contracting these loans. Tables 43.0-43.5 - Consumer Price Indices (Jan. 1988 = 100)

The Consumer Price Index (CPI) is compiled and published each month by the Statistical Institute of Jamaica (STATIN). It is based on a basket of goods and services containing 480 items. The current series which has a base period of December 2006 reflect data captured in a Household Expenditure Survey conducted from June 2004 to March 2005. The survey covered lower and middle income households with median expenditure of $309,000 in 2004/5, representing 85 per cent of all households.

- **Other Urban Centres:** the parish capitals and 32 other urban centres (main towns) outside of GKMA; and
- **Rural Areas**: all the remaining areas not identified as being part of GKMA and Other Urban Centres.

All commodities in the household expenditure survey are divided into twelve (12) major *Expenditure Divisions* that are based on the **Classification of Individual Consumption According to Purpose (COICOP)** - a system developed by the United Nations. The 12 broad *Expenditure Divisions* are:

- Food and Non-Alcoholic Beverages;
